# Quick Poll: How do you feel about AI?

Optimistic, the best  
thing ever!

Skeptical about its  
impact

I like the tech but  
I am concerned

## Finance

- Fraud detection by analyzing transaction patterns
- Algorithmic high-frequency trading by analyzing data for optimal returns
- Better fraud detection and enhanced security

## Automotive

- Autonomous vehicles and self-driving technology
- Intelligent assistant
- Reduced traffic accidents and improved safety

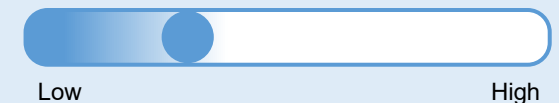

## Manufacturing

- Smart factories and industry 4.0 technologies
- AI-driven quality control and supply chain management
- Higher productivity and efficiency

## AEC/O

- Generative design tools
- Automated quality control and inspection processes
- Reduced design time and effort through automation
- Improved accuracy through precise automated inspections

## Executive Order on the Safe, Secure, and Trustworthy Development and Use of Artificial Intelligence

- Signed by President Biden on October 30, 2023
- Establishes comprehensive framework for ensuring AI technologies are developed and deployed in a manner that's safe, ethical, and aligned with democratic values
- Addresses various aspects of AI governance, focusing on risk management, innovation, public trust, workforce development and international collaboration

# How the EO on AI relates to construction

**Project management optimization** – emphasis on transparency and accountability

**Safety protocol enhancements and quality assurance** – mandate for rigorous safety standards

**Sustainability** – supports AI applications for environmental sustainability

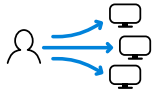

**Workforce development** – focus on enhancing education and training programs

# EU requirements for achieving trustworthy AI

**Human agency  
and oversight**

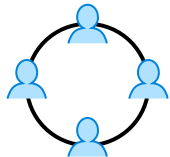

**Robustness and  
safety**

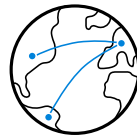

**Privacy and  
data governance**

**Transparency**

**Diversity, non-  
discrimination  
and fairness**

**Societal and  
environmental  
well-being**

**Accountability**

# China's national level AI regulation

## Content Moderation

Prioritizes traceability and authenticity – aims to foster innovation while ensuring government control

## Data Protection

Ensure personal data processing doesn't harm or undermine public order, emphasizes user consent and rights

## Transparent Data & Models

Addresses the need to ensure security and transparency, and prevent discrimination, with algorithms and datasets

## Ethical and trustworthy AI: Six Nemetschek commitments

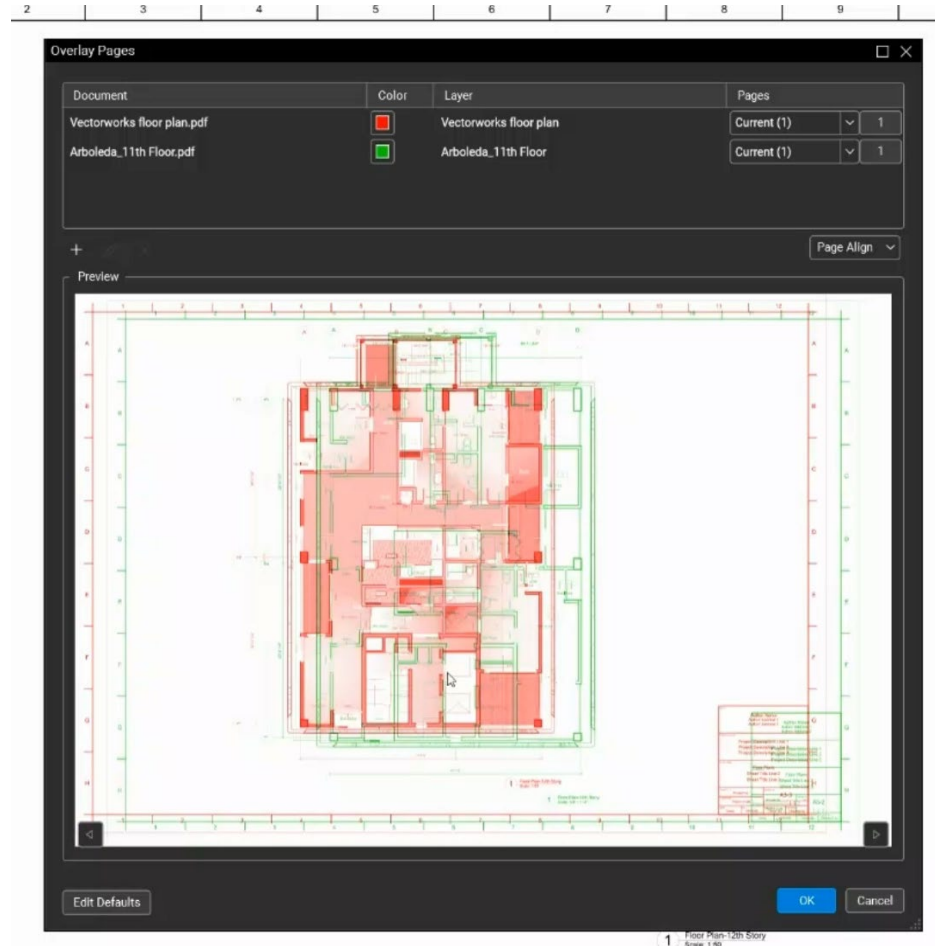

**AGC**  
THE CONSTRUCTION  
ASSOCIATION

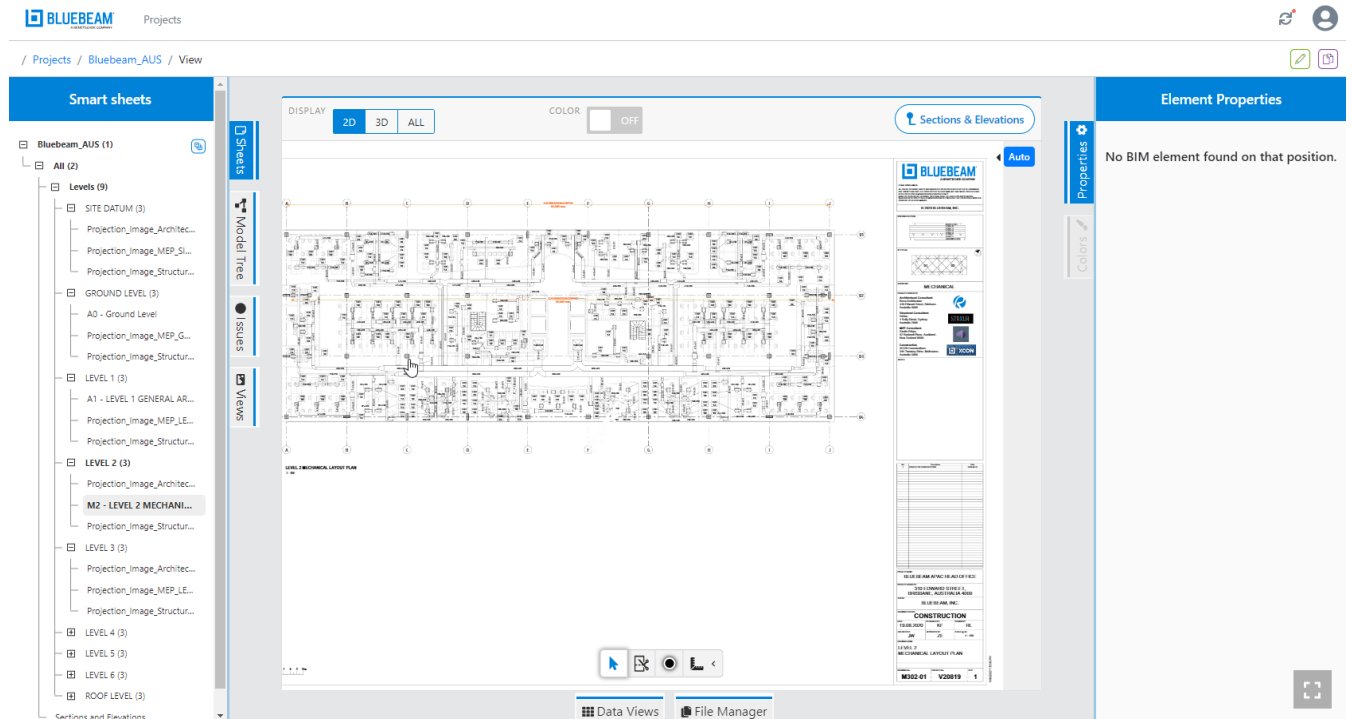

# Overlay drawings

- AI used to align drawings automatically
- See differences between revisions or disciplines
- Understand the differences up to 80% faster

# Connect 2D drawings to BIM

- Uses AI to correlate drawings with BIM models
- Navigate BIM data via 2D
- Gives BIM access to the field

**AGC**  
THE CONSTRUCTION  
ASSOCIATION

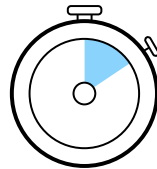

# Why consider Ethical AI

**Maintain trust  
and reputation**

**Mitigate legal  
and regulatory  
risks**

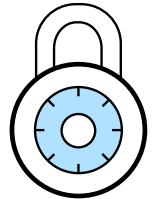

**Enhance  
operational  
efficiency**

**Promote  
inclusive  
business  
practices**

**Meet  
stakeholder  
expectations**

**Future-proof  
your business**

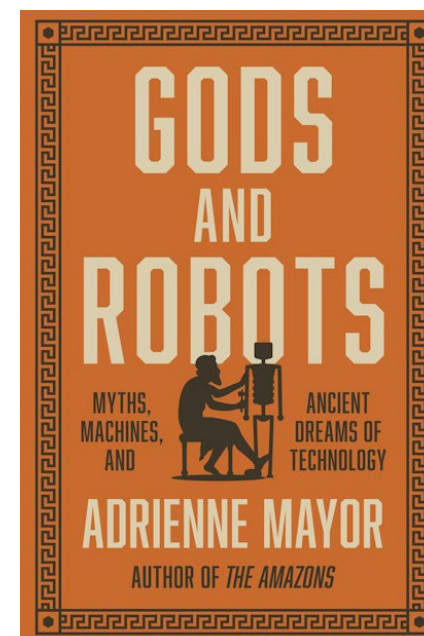

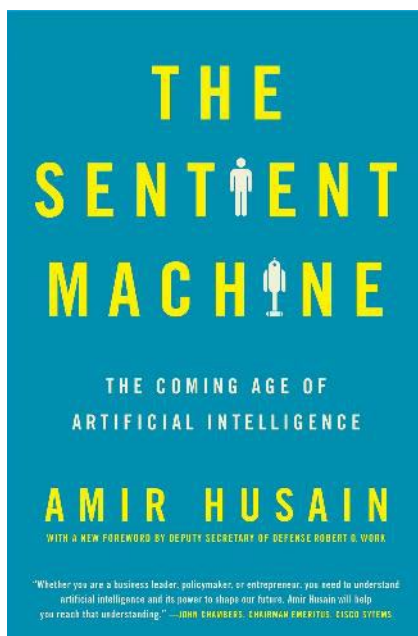

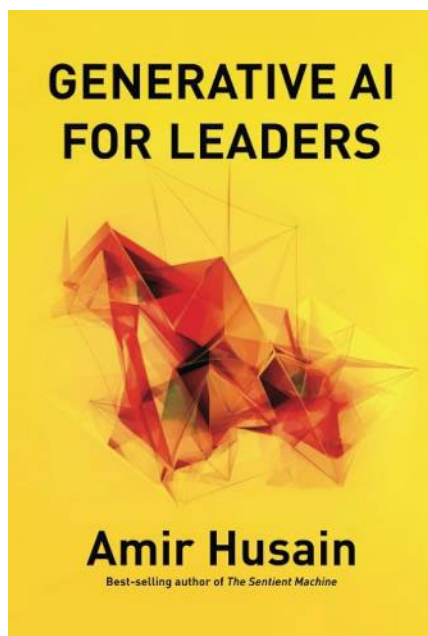

# Key Takeaways

- AI is starting to make an impact in AEC and if left unattended could have negative impacts
- Humans thrive in the environment of trust and fairness, and AI should be trustworthy
- Push the responsibility to tech providers to be trustworthy
